England

Dear Ray,

Thank you for your letter of the 14th.
I am sorry to disappoint you. There are no more
copies of 'Early Golf'. The content, minus the pictures,
did however appear in 'Best of the Bulletin' so if
you get a copy of that one - and that is available -
it will cover you as far as the contents go.
Reading the report in the Bulletin, the 10th Annual
Meeting must have been fun. I never managed to get to
one yet. Maybe I'll make it to the meeting at Muirfield.
In the years since I wrote 'Early Golf' I have unearthed
a mass of new, old that is, material, which hopefully will
appear in a new book towards 1981. If I come to Muirfield
I shall bring some nice slides to look at.
My latest experiments were concerned with making
1600 A.D. clubs. Before long I shall send a story on
it to the Bulletin. It is all most interesting.
Kindest regards, yours

Steven van Hengel
