Dear Steven:

Your contributions to our Golf Collector Society bulletins are just outstanding. The articles show the great pains and minute attention to detail that you give to your accurate reporting. May we be honored with many more of these golf goodies. Found speaking to you personally at the Golf Collector Society meeting at Royal Cinque Ports Golf Club last summer was a rewarding experience and an enlightening one for me.

Had the pleasure of visiting Betty and Joe Murdoch with my wife Jean last November. A very pleasant get-to-gether. Joe's "museum" is out of this world. Golf Books - I never realized there were so many in the world. He has some collection.

Had a great time also at the Pro-Am Hickory Hacker in Painesville, Ohio. Just returned from a pleasant week there and was lucky enough to be part of the foursome that won the event.

I intend to be in Scotland for the British Open at Troon next month. Hope to renew our acquaintance and looking forward to seeing you and many other old friends.

Hope this finds you and your family in the best of health. God bless.

See you soon

Aye yours,

Stuart E. Fraser
