Dear Sir:

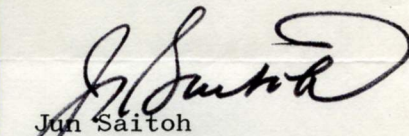

This will serve to introduce Mr. M. FUJIOKA, a member of museum committee and assistant curator of Japan Golf Association.

He is visiting your country to study the history of golf and the system of museum. And would like to see the collection of memorabilia which is the one of the most valuable and precious collections in the world, such as displayed in your club house.

As we, JGA are now going to establish the museum and library in Japan, you will obviously appreciate that we have to have your advises and suggestions for how to display, how to upkeep and so on.

We are confident that you will extend to him any assistance and courtesies of which to may stand in need.

Dear Mr. Saitoh,

This is to thank you for the letter of introduction which you issued to Mr. M. Fujioka under date of the 27th July. Unfortunately there was nobody available at the office of our Federation when Mr. Fujioka presented himself. We fear that there is a misunderstanding as far as the museum is concerned. There is no golf museum yet in this country. The Kennemer Golf Club at Zandvoort and the Haagsche Golf Club at Wassenaar have some items in their clubhouse. Other than that the undersigned has a modest private collection at his home.

In recent times two Japanese television crews have been trying to shoot pictures on history of golf in this country but, as we learned afterwards, had difficulty in finding their way.

If there are interested parties or persons in your country for golf history in this country, we would suggest that they get in touch with the undersigned, who will be happy to assist them in finding their way and provide some information on the fairly massive documentation, the pictures and objects which are spread all over this country.

With kind regards
yours faithfully
