Dear Douglas,

Thanks for letter re competitions &c; I have in mind one thing regarding the possibility of forming an Amateur & Pro; Alliance which is generally formed in other countries. I dare say you have also in mind and of course its difficulties. You have more experience than I have of this. Would it be possible for instance to have a competition between the professional from each club partnered by an amateur? or the amateurs could also form partnerships so a club could have more than one - of course the handicaps could be restricted if necessary.

We have had terrible weather here lately nothing but rain I hope it soon changes. I suppose it is the same you would hope the family are quite well - looking forward to seeing you in April.

all the best

Frank
