Dear Douglas

No doubt you are thinking I am a nice sort of fellow not replying to your letters. I was very much surprised myself to learn your first letter had not been replied to, as I left for England and was expecting our Bee to reply for me. so I please ask you to excuse me. Your second letter I have been waiting to hear the colours of my committee which I have received today. They are anxious that we play our match the day before our Cup, as it will mean being away from the club to long also after the Championship we like to spend a few hours the next day with some of the boys from England. If you leave Holland the night of your Championship with the other English Pros you will arrive in Belgium midnight - and we can play the next day about 11 o'clock which will also give us practice for the Championship. Trusting you will do your best to arrange this. Wishing you all the best.

Yours sincerely
J. Bannell
