

Trenton Ice Club.

Keigels. C.

12. 2. 34.

Dear Douglas,

I think we can say that the money question for the Trenton Ice Club is as good as raised. Having written to nearly all the members the response is better than I even expected. I asked for at least 250 Guilders (so it may be 00.

In order to be able to interest the members in our competition, I suggested that after the competition (Amateur-programs) on the Saturday, the professionals be invited for the evening in the clubhouse, when they will be asked to give their experiences, and bits of hints, on the game. I can assure you that my members will rally round and a good and pleasant evening can be spent - and to our benefit.

These arrangements are now complete. What do you think of the arrangements?

Regarding the date. (In confidence, if this could be arranged in May, I think it would be better, because I have three Englishmen who are rich - and they come here about this time. They are sports and are anxious to be here - They will no doubt give special prizes and make it even jollier than it otherwise would - I have promised to write them informing them of the date. However, do your best to get a large entry, and I will attend to the rest here. I will write you further regarding progress.

Yours sincerely with best wishes.

Frank

at your convenience so that I shall be able to get to work on the 'money business'. I do feel certain that we can spend two pleasant days here this year, as it can be if I get the members interested personally.

Hope you are busy! It has been very bad here this last year or two but it is now improving a little. They are getting a little bit more used to the Times perhaps.

With best wishes

from us all.

Frank.

Mr. Douglas Monk.
